ARE WE READY FOR THE FIRST MATCH

Well after the long winter break no doubt most of you are counting down the days until Sunday April 17th when we tackle the Dudley No 2 Canal for our opening contest in the 2016 season.

In the past we have fished this stretch twice in pre-season matches and to be fair the first time we had a good day but the second time the less said the better. Peg 15 will be our first peg which is just by the foot bridge and we have right through to 61 which just by the tunnel. In the middle of the stretch the canal widens where the boats used to turn around so if you use the feeder a lot this is the place to be drawn.

There is plenty of car parking spaces along chancel way and we will make the draw at the foot bridge.
